

2024 Year In Review

2024 has been the year of innovation and growth for AUTOCRYPT. We introduced **4 new groundbreaking solutions** designed to address critical challenges in the automotive cybersecurity sector.

AutoCrypt® CSTP

AutoCrypt® ASL

AutoCrypt® CLS

AutoCrypt® RODAS

New solutions

Awards and certifications

This year, our efforts were recognized with several prestigious certifications and awards:

- Designated as a **Vehicle Type Approval Technical Service Provider** for UN R155/156
- Received **Top Innovator Award** at the 2024 CLEPA Innovation Awards

Collaboration fuels innovation, and this year, we forged **impactful partnerships** that strengthen our solutions and expand our reach:

VinCSS

Bayanat

Cohda Wireless

Emobi

MicroNova

Partnerships

Events

We participated in several important events, connecting with industry leaders and showcasing our innovations:

- CES 2024
- ITF Summit 2024
- VDI ELIV
- AutoTech Detroit 2024
- Automotive Testing Expo Europe
- International VDI Conference
- ITS World Congress Dubai
- Car Connectivity Consortium

and more...

This year, we published a range of resources to guide and inform our industry peers:

- **The Rise of Chinese Software-Defined Vehicles**
- **UNECE Regulation 155: Key Vehicle Components to Focus on for Regulatory Compliance**
- **Public Key Infrastructure: Use Cases in the Automotive Industry**
- **Robotaxis in the Spotlight: Market Trends, Technology, and Disengagement Analysis**
